# BOUQUETS

MIXED PREMIUM BOUQUETS

1

ROSES ONLY BOUQUETS

2

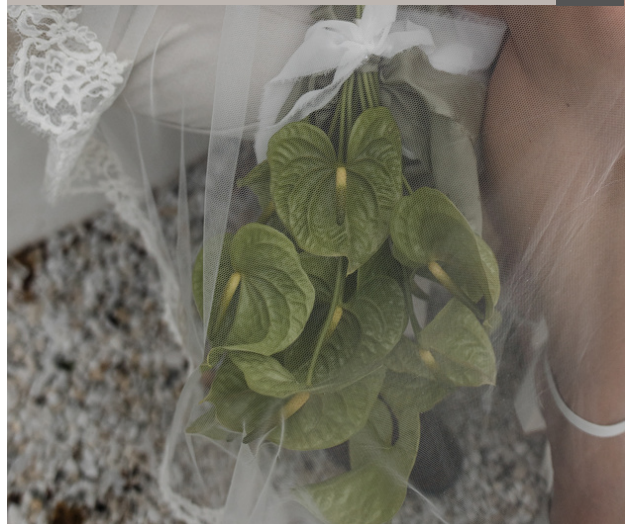

LARGE GARDEN BOUQUETS

3

ULTRA MODERN BOUQUETS

4

In the Deluxe package, you receive up to 5 large, premium bouquets for yourself and your bridesmaids, in any style you like! We give you a choice of seasonal premium flower varieties, as well as locally grown blooms that we can work with. Here are some examples of popular styles of bouquets.

1

## MIXED PREMIUM BOUQUET

This style of bouquet is lush and full, using a majority of premium flower heads. You can choose from imported roses, orchids, anthuriums and many more, for an extra special bouquet.

2

## ROSES ONLY BOUQUETS

Imported, reflexed roses in one or many colours are very popular, contributing to a modern luxe aesthetic. Add a trailing ribbon for extra flair.

3

## GARDEN BOUQUETS

This style uses a mix of soft, English garden varieties for a whimsical, feminine bouquet with lots of movement. Pastels and contrasting colours such as peach and blue are popular in this style.

4

## ULTRA MODERN BOUQUETS

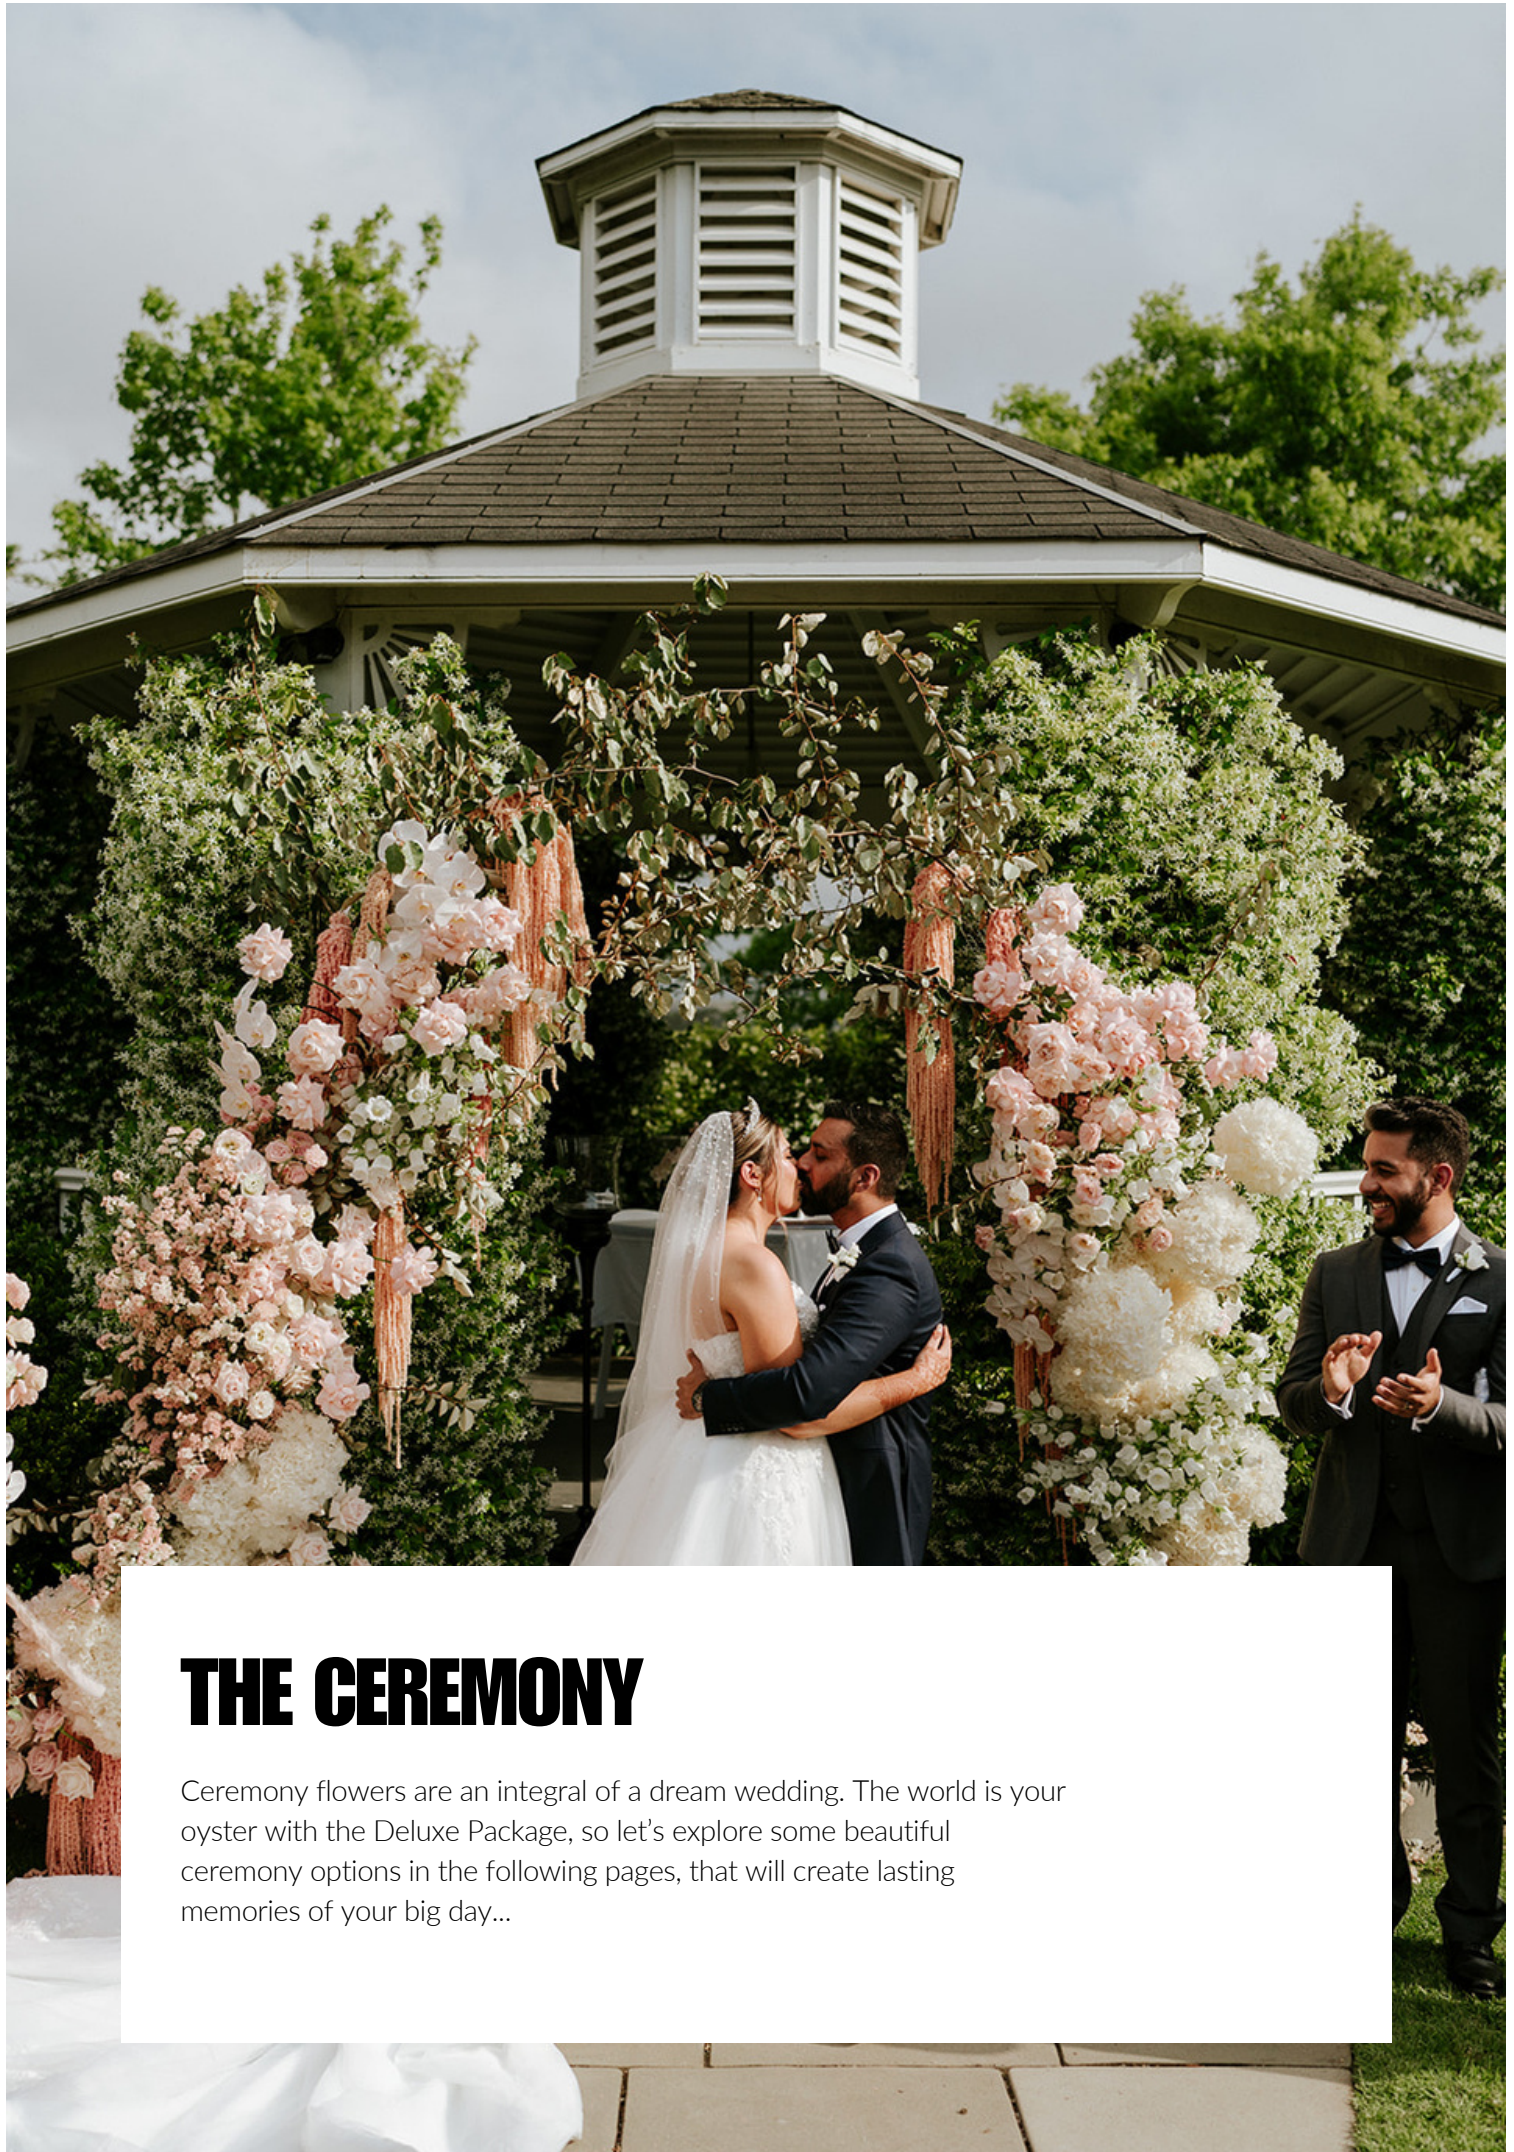

This style makes use of interesting, artful flower varieties, en-masse. This is something a little more bold for the very modern bride. Add details like pearls or daimontes for the wow factor.

## **BOUTONNIERES**

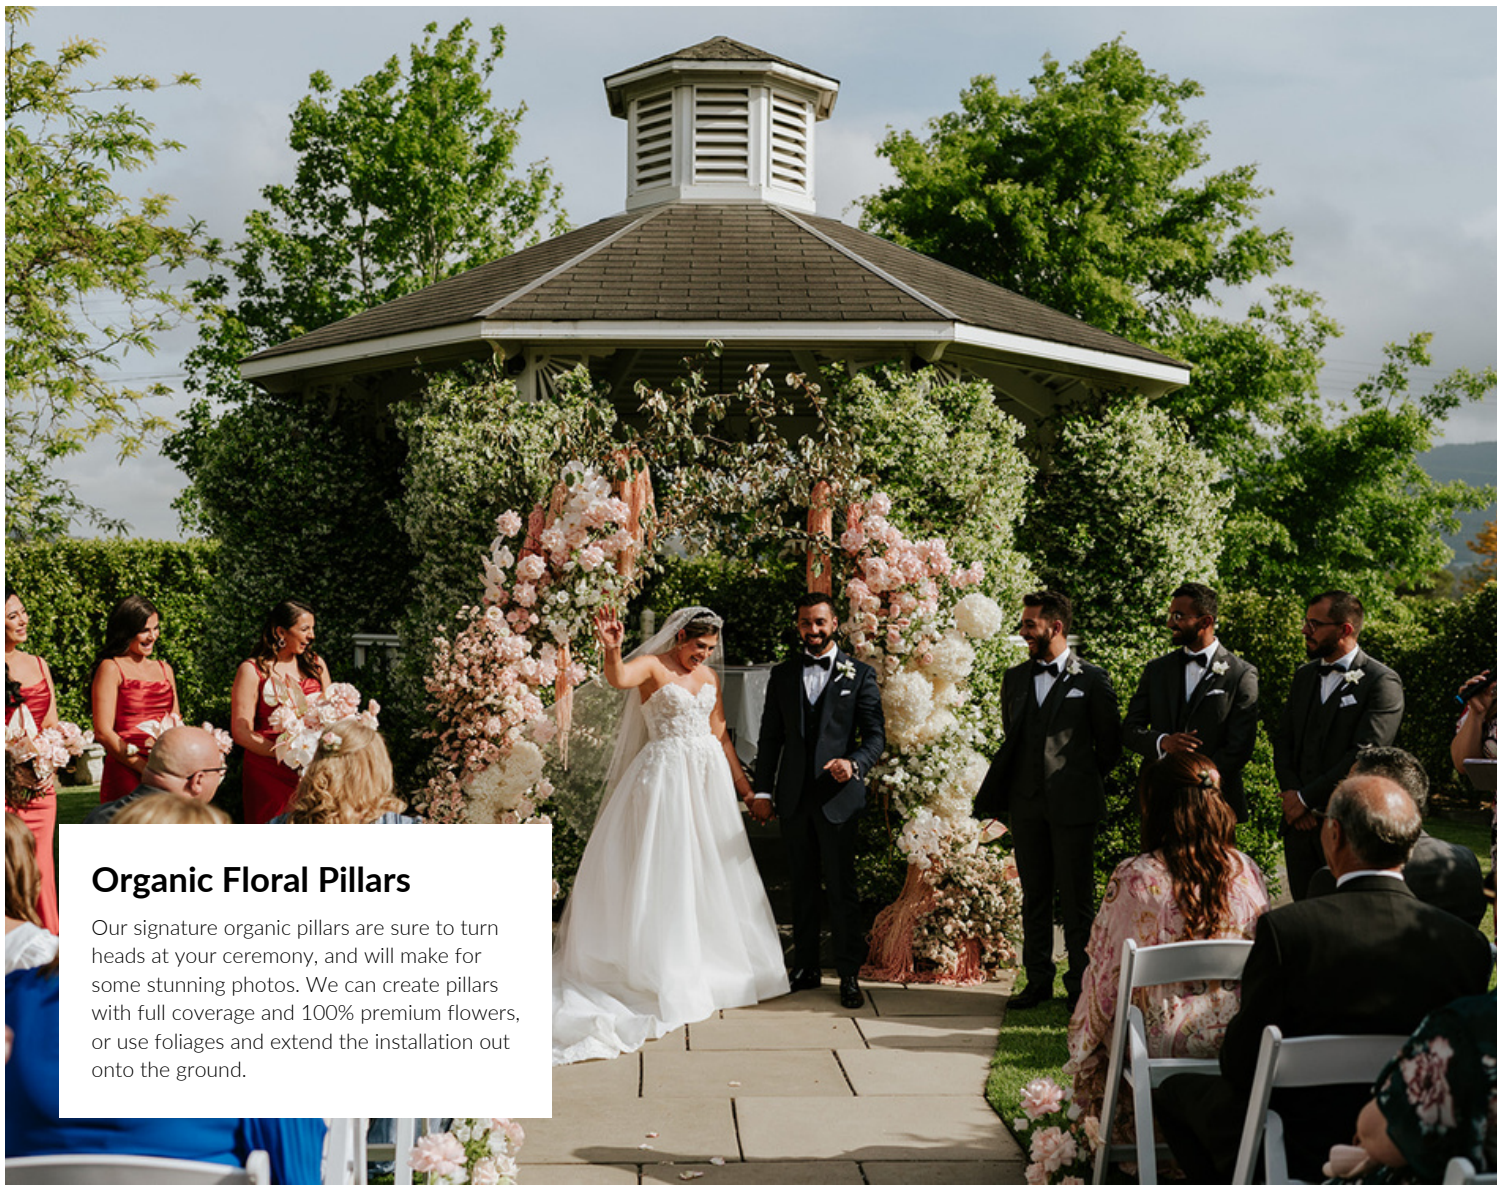

---

Boutonnieres are a great way to subtly add a pop of florals to the groom and groomsmen's outfits. We select a combination of small flower heads from the ingredients we purchase for the ceremony, reception and bouquets. We then carefully wire the flowers and shape them into a perfect, tiny posy to sit on the lapel. If you prefer, we can also make pocket squares for something a little more modern. We will deliver the boutonnieres to where the groom is staying, and help attach them to the suits.

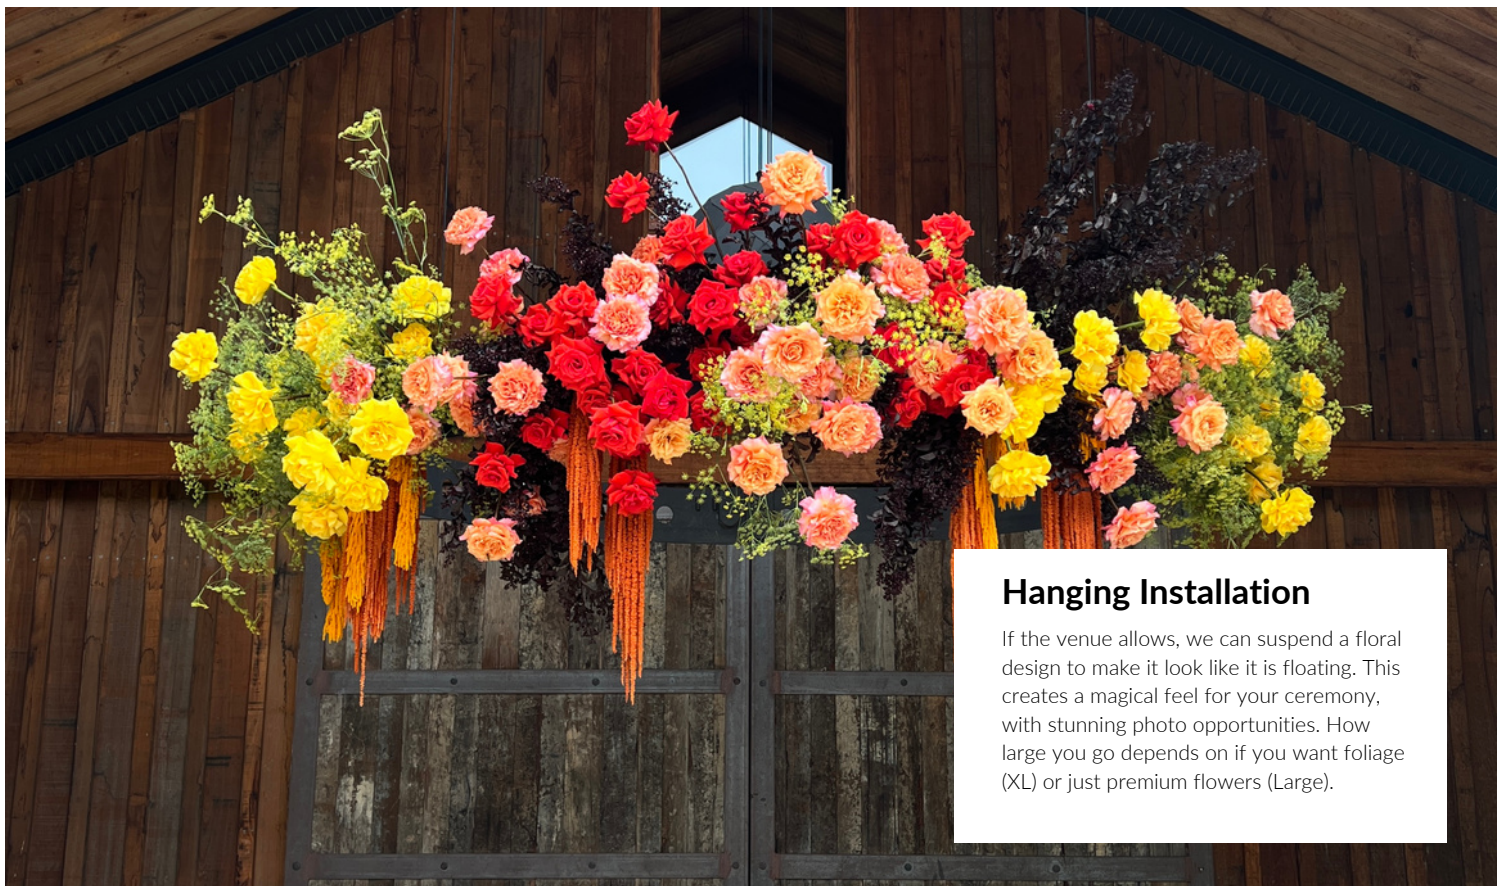

## **THE CEREMONY**

Ceremony flowers are an integral of a dream wedding. The world is your oyster with the Deluxe Package, so let's explore some beautiful ceremony options in the following pages, that will create lasting memories of your big day...

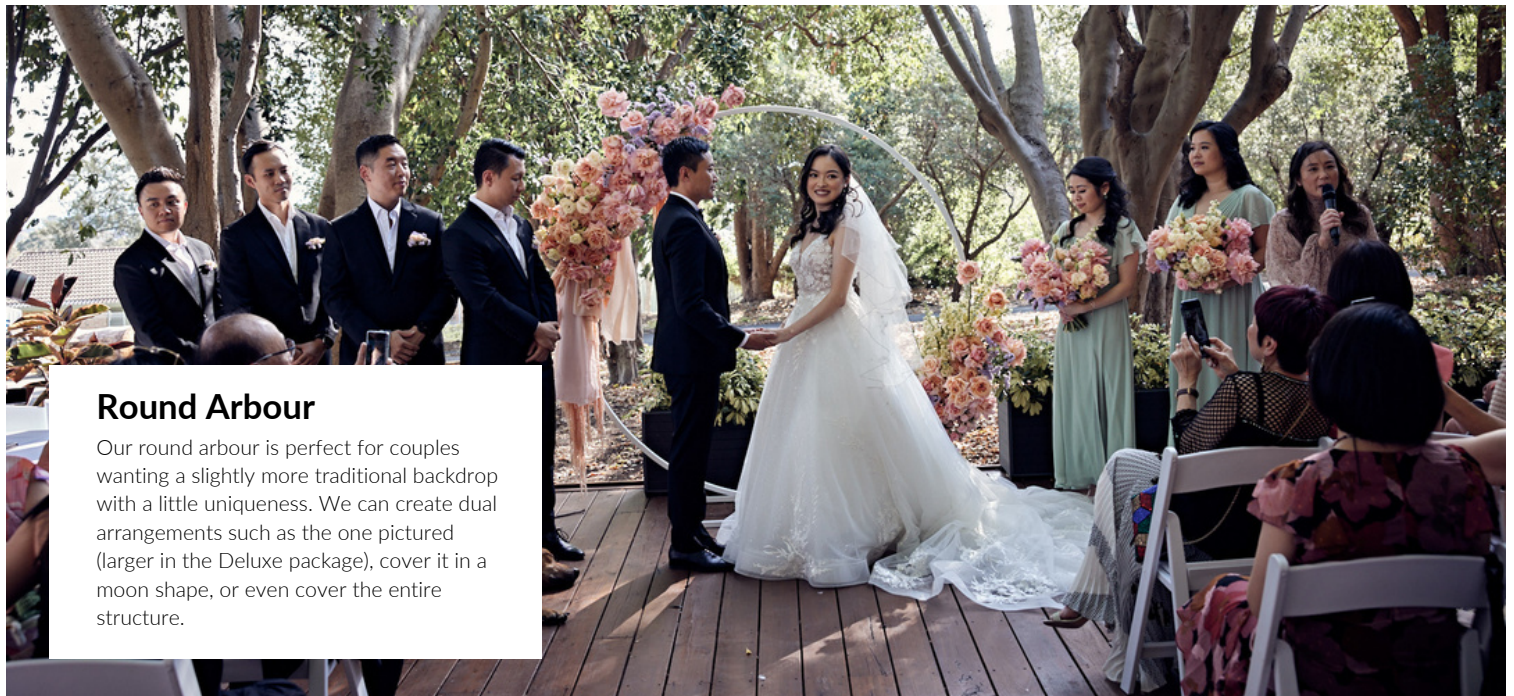

## Organic Floral Pillars

Our signature organic pillars are sure to turn heads at your ceremony, and will make for some stunning photos. We can create pillars with full coverage and 100% premium flowers, or use foliage and extend the installation out onto the ground.

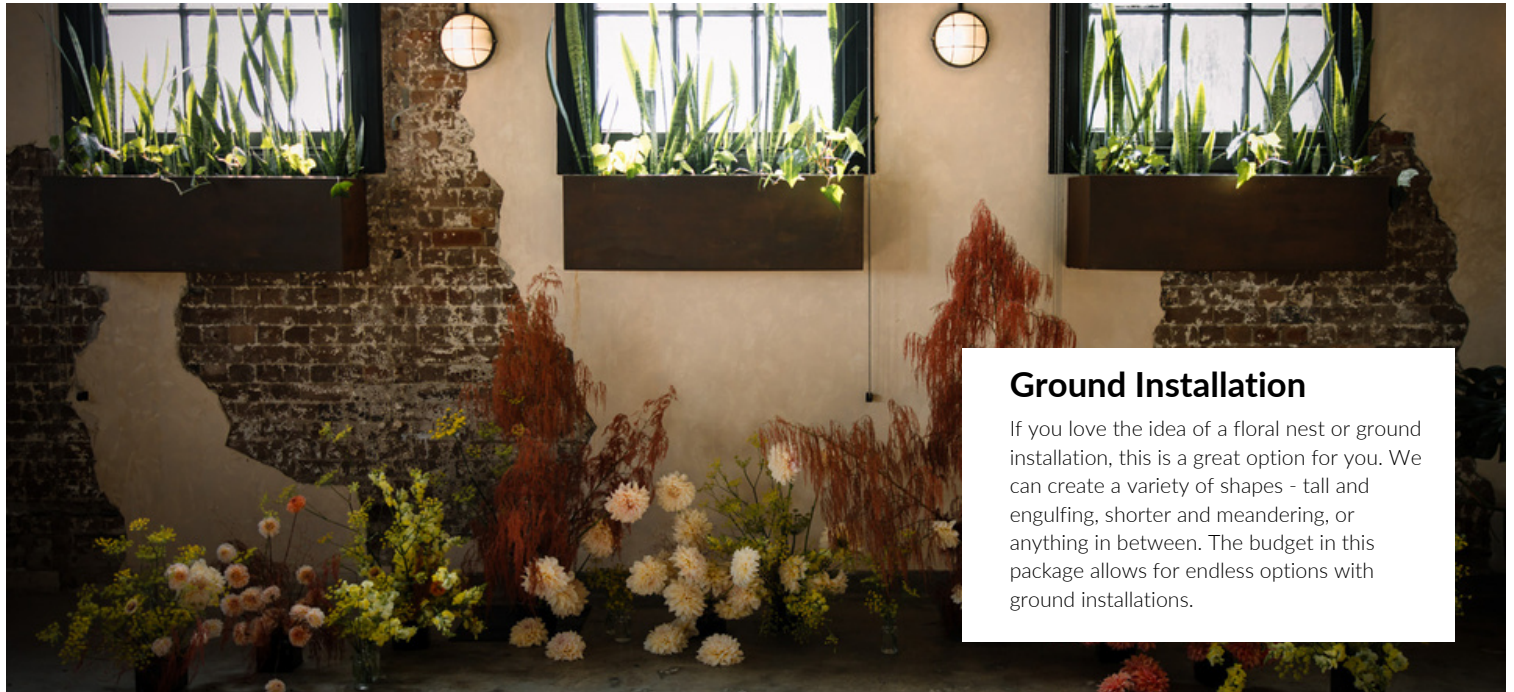

## Hanging Installation

If the venue allows, we can suspend a floral design to make it look like it is floating. This creates a magical feel for your ceremony, with stunning photo opportunities. How large you go depends on if you want foliage (XL) or just premium flowers (Large).

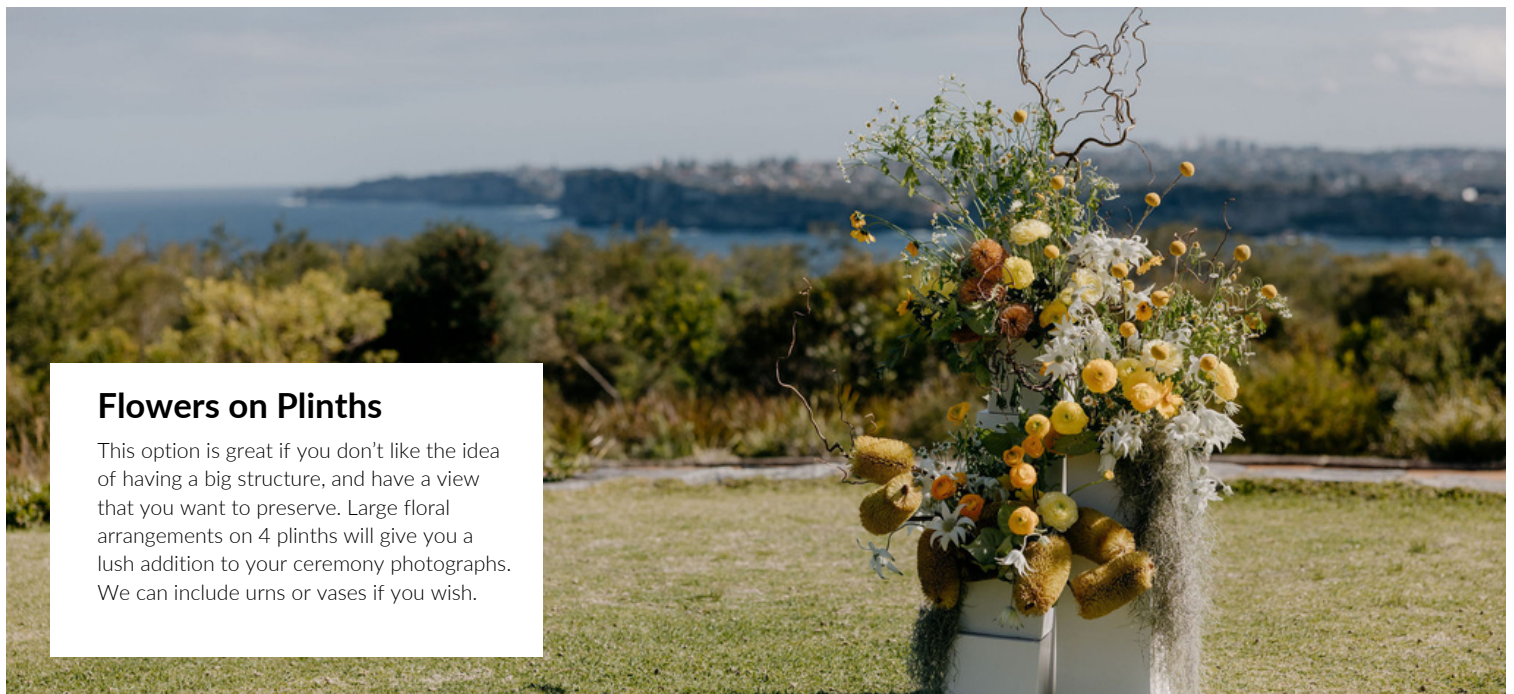

## Round Arbour

Our round arbour is perfect for couples wanting a slightly more traditional backdrop with a little uniqueness. We can create dual arrangements such as the one pictured (larger in the Deluxe package), cover it in a moon shape, or even cover the entire structure.

## Ground Installation

If you love the idea of a floral nest or ground installation, this is a great option for you. We can create a variety of shapes - tall and engulfing, shorter and meandering, or anything in between. The budget in this package allows for endless options with ground installations.

## Flowers on Plinths

This option is great if you don't like the idea of having a big structure, and have a view that you want to preserve. Large floral arrangements on 4 plinths will give you a lush addition to your ceremony photographs. We can include urns or vases if you wish.

## **AISLE FLOWERS**

---

Aisle flowers create a magical laneway for the bride to walk down towards their beloved. Your wedding is all about a collection of singular, beautiful moments that will be painted in your memory, and photographs forever! Make it extra special, and line the aisle with gorgeous florals that match the main ceremony installation.

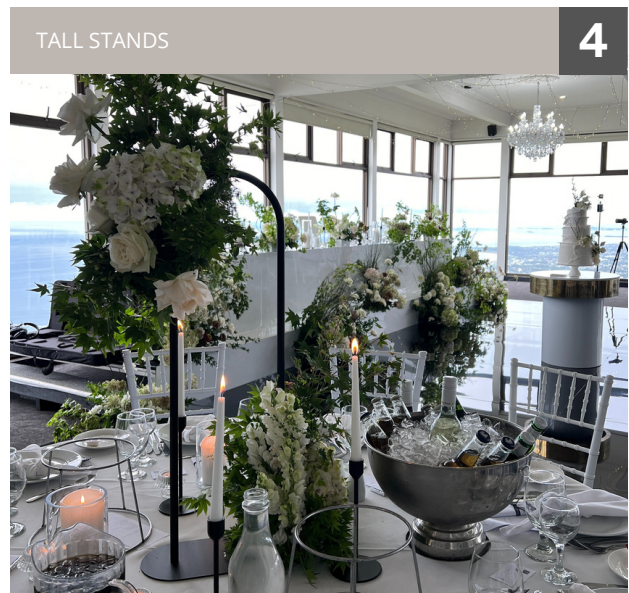

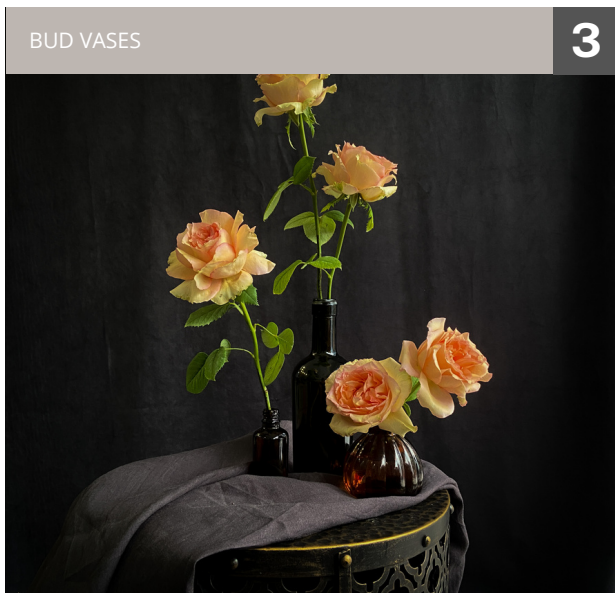

## RECEPTION FLOWERS

The Deluxe package allows you to create the reception of your dreams! We give you some amazing options to elevate the style. You can choose between large and lush centrepieces, elevated stands, modernist ikebana, bud vases or table runners. Choose from a range of seasonally available, premium varieties in the colours you love.

# GUEST TABLE FLOWERS - STYLES

You have a choice of these five styles in the Deluxe package. These styles of table florals work well with both premium or local flower varieties. These arrangements will be used across your guest tables and your bridal table.

1

## IKEBANA VESSELS

A very modern and popular style for creating interest and intrigue for the guests. There are many ways to create this style of arrangement, and we can design it to fit seamlessly in with your aesthetic.

2

## LARGE FLORALS

A more traditional option, we can make regular floral arrangements with or without a vase.

3

## BUD VASES

Clustered bud vases have gained popularity with many brides/grooms, due to their simplicity and modern style. We can use clear or amber glass to fit with your aesthetic.

4

## TALL STANDS

We can elevate the flowers off the table by adding tall stands to the styling. This makes a beautiful sculptural statement while also being practical.

## TABLE RUNNERS

Another traditional arrangement style, we can create this by the metre. In this package you can have up to 19 metres in total. This could be more if we use only foliage, or we could break it up into smaller pieces for more coverage.

# FRUIT - OPTIONAL

Fruit has made a huge splash in weddings and events, and is wildly popular. You have the option of including fruit on the tables in the Deluxe package! We can use any fruit that is seasonally available, and arrange it in various ways. Here are a few examples you can look at.

## 1 HANGING FRUIT

We can use fruit in your ceremony installation by suspending it with fishing line for a magical effect, or using it en-masse to create an sculptural, artistic form. Pictured here - hanging apples, and bundled grapes.

## 2 LUSH TABLESCAPES

You can have a delicious tablescapes with endless fruit and florals overflowing along the top. Pictured here - apples, lemons, grapes and florals.

## 3 FRUIT STACKS

A more minimal version of the previous option, we can create little sculptures with the fruit, stacking it high on top of itself.

## 4 MINIMALIST FRUIT ART

If you prefer something a little less OTT, we can use the fruit in a minimal way, and create interesting shapes from larger pieces instead, and place it sparingly along the tables.

## SEATING CHART FLOWERS

Seating chart flowers add a lovely element to the entrance of the reception space. Guests also spend a fair bit of time looking at the chart, so it is their first impression as well. We include seating chart flowers in the Statement package, so your guests can have an enhanced experience.

# LOGISTICS

---

We get it, wedding planning is stressful, and the last thing you want to think about is all of the logistics that go with organising multiple suppliers for the day. We have you covered. After we collect a few details in our simple questionnaire, we take it from there and your work is done.

## SETTING UP

Setting up at the event is the most important step, as everything needs to be perfect when it arrives. We take care to transport our flowers gently and carefully, so they arrive in good shape. Our team often works quickly within a time limit to ensure the scene is set and ready to go before guests arrive.

## FLORAL REPURPOSING

We often come across couples who want more impact at their reception, but wonder how we can manage that on a tight budget. This is where floral repurposing comes in. We can save you thousands by quickly moving the ceremony florals into the reception space, after the ceremony has ended. Our team is efficient and professional, and will ensure minimal disturbance is caused.

## PACKING DOWN

In most instances, our team will come back to the reception venue to pack down the flowers and styling items after the guests have gone home. We ask that any vases, bowls and structures are left at the venue, but the guests are more than welcome to remove the flowers and take them home to enjoy later.
